Accessory | MA 125

- for the use of two detector coils with one amplifier

TYPE	MA 125
Product ID	P81058
Ambient temperature	-25 °C ... 70 °C
Material housing	aluminium, coated
Electrical connection	C 16 plug-connection
Note	By using connection box type MA 125 two detector coils can operate together with one amplifier MDV/MDVH. The maximum cable lenght between one coil and the connection box MA 125 is 3 m.
